WEB DEVELOPMENT CASE STUDIES

A review of three sample website designs, their purpose, features, and implementation.

Case Study 14: Healthy Food and Nutrition Websites

Overview: This website promotes healthy eating by presenting nutritious recipes, calorie information, daily meal suggestions, and practical wellness tips. Its soft green palette and food-focused cards are intended to make the content feel fresh, clear, and approachable.

Objective: To help visitors discover simple meal ideas and build healthier everyday eating habits.

Main features: A navigation bar for Home, Recipes, Meal Plans, and Tips; a hero banner with a call to action; recipe cards with images, calorie counts, and ingredients; a daily meal plan; and healthy-eating advice.

Design and usability: A responsive card layout, readable typography, consistent spacing, green accents, and pale backgrounds support visual hierarchy and scanning.

Suggested improvements: Add dietary filters (vegetarian, vegan, allergies), serving sizes, nutrition facts beyond calories, accessible image descriptions, and working recipe/search links. Nutrition details should be reviewed for accuracy.

Case Study 9: Bakery and Cake Shop Website

Overview: This website showcases bakery products and custom cake services. Warm brown and cream colors create a welcoming bakery identity, while product photography helps customers compare popular treats and understand prices.

Objective: To present the menu, promote seasonal offers, and encourage customers to enquire about or order cakes.

Main features: A branded header and navigation; product cards for chocolate cake, pastries, and cookies with prices; a custom cake section; a seasonal discount banner; and contact information.

Design and usability: A simple product gallery with rounded cards and consistent image sizing keeps the menu easy to browse on desktop and mobile screens.

Suggested improvements: Add order buttons, cake-size and flavour options, delivery details, an enquiry form, opening hours, allergy information, and clear terms for promotional offers. Ensure contact details are real before publishing.

Case Study 22: Movie Review and Rating Website

Overview: This website presents popular films in a dark, cinema-inspired interface. Each movie card combines a poster with key facts and a short review, allowing visitors to scan titles and compare ratings quickly.

Objective: To help users discover movies and make viewing choices using genre, release year, cast, synopsis, critic comments, and ratings.

Main features: A bold MovieZone header; a responsive movie-card grid; poster images; genre and release information; cast and synopsis details; critic comments; and numerical ratings.

Design and usability: A dark background contrasts with bright red headings and yellow ratings, creating a familiar entertainment theme and highlighting important information.

Suggested improvements: Add search and genre filters, sorting by rating or year, user reviews, rating definitions, watch-provider links, and accessible keyboard navigation. Verify movie metadata and poster usage rights.
